Software Engineer (Internship)

October, 2022 - November 2022

- In this internship learned new techs i.e. TypeScript, Figma, NestJS, Redux, etc, and also honed my existing skills.

Jivaso Technologies

Ontario, Canada (Remote)

Full Stack Developer

August, 2021 - April, 2022

- Here I used to Work on HTML, PHP, CSS, and JavaScript to build top-notch websites.
- I have also built WordPress custom themes here with my team.
- Here I have learned things like teamwork, working under pressure, time management, strategic thinking, etc.

Freelancing

UI/UX

April, 2020 - June, 2021

- I used to convert from PDF to HTML.
- Later I started creating web pages using Adobe XD.

Project Experience

Library Management - <https://github.com/coder-rohit/LibraryManagement>

- This project is based on the MERN Stack.
- The motive of this project is to make it easy for the librarian to efficiently manage activities in the library related to books and students.
- We can onboard books and students in our database and then we can update it accordingly. It also shows a little insight about all activities.
- I have used React.js for the client-side and Node (Express) for the server-side which is connected to a database (MongoDB).
- The app provides functionalities like login, Search box, type-ahead. And have all the CRUD functions
- Axios to fetch APIs. For login and logout, I am using react-cookie.

Real Estate - <https://github.com/coder-rohit/real-estate.git>

- This is a e-commerce like web app which is based on the PHP without CMS.
- We can list down properties on this website using admin dashboard.
- We can onboard books and students in our database and then we can update it accordingly. It also shows a little insight about all activities.
- I have used HTML, CSS, Javascript for the client-side and PHP for the server-side which is connected to a MySQL (Database on Localhost).
- The app has basic functionalities like login, Search box and an admin dashboard to add, edit or remove properties.
- For login and logout, I am using session storage.
